this volume analyzes the successes and failures of foreign interventions in intrastate ethnic wars adding value to current research in the fields of international security and conflict resolution it adopts the unique approach of considering successes of third party actions not by durable peace established in a target country which is the more traditional approach but by actual fulfilment of intervention goals and objectives because multilateral interventions are more likely to achieve success in the pursuit of their goals than unilateral actions robert nalbandov takes in depth studies of interventions in chad georgia somalia and rwanda and relates them to the main theories of international security the ethnic security dilemma and the credible commitment problem to produce a fascinating and valuable volume

the study is the result of an international collaborative project supported and funded by the carnegie corporation of new york this multi year venture has involved a research team of some forty chapter authors and commentators the research has been accompanied by three major

workshops on project methodology initial chapter reviews and final discussions a point was made of including both scholars and practitioners involved in power sharing settlements in the review process in the hope that more would be learned about the actual implementation of the settlements under investigation the project team was united in its wish to explore whether long standing secessionist conflicts have been addressed effectively through the significant number of self determination settlements that were generated in response to the wave of internal conflicts of the 1990s it was also committed to testing whether consociationalist and integrative techniques of conflict settlement really are as mutually exclusive as is sometimes supposed or whether they can in fact be mutually reinforcing finally the project derives its impetus from the necessity to critically rethink the doctrine of self determination one may question whether its traditional restrictive interpretation will be adequate in confronting the wide variety of future challenges to the territorial integrity of states

originally published in 1980 state and local governments handle a lot of the systems that are used and we come into contact with on a daily basis this text contains a wide range of essays that define the important questions in the field critically evaluate where we are in answering them and set the direction and terms of discourse for future work

the oxford handbooks of american politics are the essential guide to the study of american political life in the 21st century with engaging new contributions from the major figures in the field of political parties and interest groups this handbook is a key point of reference for anyone working in american politics today

for the over 14 million people who play fantasy football every year for the hardcore fan who wants information beyond sports page recaps for everyone who bets on the nfl and for the smart casual enthusiast looking for entertainment and insight comes the essential preseason annual with numerous statistical measures that go far beyond standard nfl stats pro football prospectus assesses the dvoa defense adjusted value over average of every single skill player and determines how many points better a starting player is over the average bench player measures special teams offers advanced offensive line statistics analyzes teams abilities to convert draft picks into quality players and much more and like its sister publication baseball prospectus it s written with a knowing dry wit that gets under the skin of america s most popular spectator sport compared by the new york times magazine to bill james the baseball statistics guru aaron schatz is revolutionizing the world of football statistics in just two years his site footballoutsiders com is by a huge margin the s best independent football site writes gregg easterbrook of nfl com salon calls it a must for anyone interested in going beyond this guy has more yards so he must be better now schatz and his team of football outsiders are continuing their groundbreaking work with a comprehensive authoritative book of sophisticated statistical analysis it also offers solid predictions in 2004 the outsiders predicted six of eight division winners including the steelers champion season the fading year of ahman green and jamal lewis and the breakout of the new york jets
